

PROGRAM OVERVIEW

The Consortium for Advanced Studies Abroad Program in Santiago, Chile (**CASA Chile**) provides undergraduate students the unique opportunity for full immersion into the local culture and the Spanish language, through living with local families and taking courses with Chilean university students, while receiving transfer credit to apply towards their degree.

The **CASA Chile** program is aimed for students in all academic disciplines with a good command of the Spanish language, as determined by each CASA member institution.

ACADEMICS

Academic Calendar

Fall: Late July – Early December

Spring: Late February – Early July

CASA Chile students take three university courses with Chilean students across a variety of disciplines at one or more of three top local universities:

- Pontificia Universidad Católica de Chile
- Universidad de Chile
- Universidad Diego Portales

The on-site **CASA Chile** staff provides individual logistical support and academic advising, based on each student's specific academic needs.

In addition to the University courses, **CASA Chile** provides a unique, for-credit *Pro-Seminar* course, which introduces students to the local context through cultural activities, excursions, and lectures.

ACTIVITIES

Throughout the semester, **CASA Chile** students participate in a variety of cultural activities and day-trips, aimed to expand their knowledge of Chilean history, art, the environment, and more. Program participants may also explore public service and internship opportunities beyond the classroom.

Unique to the **CASA Chile** program, two four-day all-inclusive trips to Buenos Aires, Argentina and San Pedro de Atacama Desert, Chile, are included in the fee.

ACCOMMODATIONS

To enhance their cultural, social, and linguistic experience, students may choose to live with local families in Santiago. The Resident Director works closely with a housing coordinator to facilitate homestay opportunities that are a good match for program participants.
